

Peter's Meeting with GPU Home on last day of his visit—28/10/97

fnm: ptrgpu28.10 tc:bon

Gary prays: [Thank You for??] ...making it possible for Peter & John to be here at this time, & for these last days we spent together in a whirlwind of activities & meetings & getting together, all that's been accomplished & the chance to share so many different things. We do pray, Lord, that you bless this what will probably be our last meeting together. Really lead, guide & anoint whatever subject matter that needs to be addressed, to be completely covered. Most of all, Lord, really continue to cement the bond you've given us all.

Peter prays: Amen. Thank You so much for everyone here, & for the wonderful job that they have been doing & how they've continued to further your work to pioneer this new effort which is just that, Lord, a major pioneer effort. They've been willing to take on the task & have been struggling valiantly to do the job. I just do thank You for them & want to acknowledge to them, Lord, that we're very grateful for all that they do & have done, & the distance they have gone so far in fighting this battle. We pray, Lord, You bless them as they go forward, as they continue to fight to win the war. I really pray for each one, that You do bless them & really strengthen them. I pray now that during this time, everyone can just set aside any business & just enter in in spirit, to receive the things You want to share. Please anoint & help me in the things I share, & the things I read too, I ask for Your anointing & help, in Jesus' name.

Peter: I'm sitting in front of this illustrious crowd, Lord help me to come up with something. (People chuckle.) Well, thanks for being really sweet to John & I. Everybody was really sweet, & it was a blessing to have time to talk with everybody & touch base. For me, I feel it's shortened the cord between us & you guys. (Fam: Yes.) It's given me, anyway, a better understanding of the situation which was one of the purposes to come. Having talked with everybody, then how I will interact with you will probably be different. I've been here, seen it, & now I kind of understand it better, & it'll help in the interactions.

At the beginning of the year, you've heard this talk about the structure thing, you've all seen the videos? (Mike: Right.) Well it's been very encouraging for me for me to be able to go to all the structure places. This year since January, we've hit 4 of the 5 CRO areas. I'm going to go to the CRO Office next. After I leave here, that's where I go. We've seen all the CRO offices except for South America. That means all of the NPCs, a number of ABMs, different Vses & things like that, PPCs, that kind of thing. It's been a real blessing to do it & to try to be a help in the structure Homes, & also to touch base with them too. It makes it more understandable for us. We see what goes on when they write about heir needs or their problems. You can visualize it, you know them--& it's helped.

Lord willing, when we have the Summit this time, it will be representatives from each Office—representatives of all the finance guys, representatives of the FEDs, different ones coming through for short periods of time, Lord willing, to sort of have workshops so that they can discuss together & the CROs can discuss with them, & we can try to again streamline things & get things so that we're efficient & effective & serving the Family, which is what it's all about. That's what the structure Homes are all about. **That's what you're here for—to serve the Family, to supply their need for money**, which is always a big need, but the need for tools, as well as to reach the world. I mean that's what the Family's here for anyway is to

preach the Gospel & to reach people. So it's been a real blessing to come around to see people. It's certainly been a blessing to come here.

We really love you, & I know maybe some of you guys feel like you're bad or you've failed or you're this or that, or you haven't progressed as much as you would have wanted to, or this hasn't happened or that's kind of fallen through. Well, look, it's pioneering & it's a battle & it's a fight. The way I look at it is, this is one of the major things that is going on in the Family today, & if it works—if the Foundation for example brings in a lot of finances, if the marketing hits a bingo on some of the tools & it brings in the finances & gets the tools out, if we get the books out & we really get the tools out there to the Family—it's going to have a tremendous effect on, souls, on the inspiration of the Family, on the outreach, on everything.

So if I was the Enemy, this is one of the places I'd hit pretty major big-time, because the victory here is a major victory, & a defeat here is a major defeat. So I'm not surprised to find out that it's a struggle & there's ups & downs & battles & you're slogging through & it's going slow & it's hard. I'm not surprised. Goodness! I wish it wasn't that way for you, but it's almost natural that it would be. It's like climbing Everest, really, in the spirit, where it can go if it works. If those doors open, if the Lord sees fit to have it happen that way, it will be major. I think some of you probably feel, or have felt like well, we're not this or I'm that or we should have been doing more or we didn't hit this or that didn't come through. Forget it. You're here doing your best every day slogging through, & it's one battle at a time, & the Enemy is fighting hard.

Of course you can't just say, "Oh well, the Devil is fighting so we'll just kind of give up & don't worry about it, Peter & Mama understand." No, you've got to keep slogging away, but the Lord's going to do it. He's promised it, & I'll read you some things with more of His promises. But what I think is very sweet of the Lord is He tells you the end of the road. He says it's going to work, it's going to happen. Of course he doesn't show you everything in-between before it does, because I guess if you did, maybe you wouldn't want to walk that road. But that's His promise. He says it's going to be a benefit. I think especially in this case it's important that you know that so you can keep focused on the goal, so you can go through all that it takes to go through—the hard work & the frustration sometimes & all the rest.

But thank you for your willingness to do it. I meant that, we're very thankful for everyone here & everything that you do. It's making a difference & it's pioneering. Will every little aspect of it work? I don't know. Will the Foundation bring in...? We don't know yet. The Lord says it will. The Lord says we'll hit it in the video & the broadcasting & all the rest, so I believe it'll happen. It may not happen exactly the way I've interpreted what the Lord said. When the Lord says, "Yes, you'll be a financial power"—great. But He didn't give you a definition of "financial power equals 80 billion or 100,000". He didn't say. He just said that you're going to be. He says we're going to do it, & I believe it with all my heart, that everything the Lord has said about the fruits of your labors is going to come to pass.

So please keep plugging away, slugging away, slogging through until it does, because you're the only ones who are doing it. There's not anybody else. There's no fall-back team that's trying it somewhere else. You're it. That's again another reason you may face strong battles, because you are the ones doing this job. So I just wanted to tell you that, & tell you thank you for doing it, for your willingness & for being faithful, for getting educated in all of this. It's been a big education, I think, for everybody & it's taken time. It's been an investment of your time & your efforts & you've had to start from scratch.

You've had to learn ministries in some of the cases here, doing things that you never knew, that the Family never knew, that quite frankly we didn't even care about for many

years, it didn't interest us. Now it does. And just like nobody knew anything about video production & we didn't know very much audio things 20 years ago & all of these different things—or computers. I can remember the first time we got the very first Apple, & nobody knew anything, & there it was. Well, that's how the Family is. The Lord shows us to go a certain direction. He gets faithful people like you to learn & to grow in it, and boom, it goes. But this one is a little more complex & complicated than most of the others. The amount of things you have to learn to make it happen is quite large. So it's been an investment of your time & energies to learn all of this, & you're learning, & it's good. I think the Lord probably didn't have big breakthroughs earlier because quite frankly you didn't know what in the world you were doing. Now you're getting to know, & I believe we're going to see the victories.

It's also been an investment, besides of your lives & your work, on our part, on WS it's been an investment of finances. Some young people recently were asking me--& people ask me this often, in fact we've published something about it—but they said, "Why doesn't World Services take its money & invest it? Put it on the stock market, put in this." (Everyone laughs because the stock market crashed quite a bit yesterday.) I've answered that before, but as I thought about it, & because I knew I was coming here I thought about it, I said, "We have invested. We do invest. We invest in music to keep the Family & young people inspired. We invested in 3 new magazines this year for these reasons." We invest in major money right here. It's just as much of an investment as if we were to take that same amount of money & put it in the stock market, except I'm expecting bigger things out of... I'm not expecting to see the GPU crash. (People chuckle.)

Yes, it's a big big huge investment. Would it be considered a big investment for Citi-Corp? No. But I'll tell you, from the Family financial point of view, it's a major thing. In the amount of time, basically the year & a half that the GPU project has really been more or less up & running, I would say we've invested more in this than in any project that I can think of in all the time that I've been around, with the exception of sometimes when we've had to evacuate whole major countries & we just had to do an emergency thing & throw as much money in as we could to get people out. It's a major, super major investment because we believe it's going to have a return, & the return is going to be not just financial. It may not be a great financial success. But if the tools get out, if souls are reached, if what comes in can at least keep the machine running so that the tools can get out there & we can produce new things, it's a success. OK? I'm hoping & praying for more than that, but if it doesn't, if at least we're helping the Family to win souls, it's worth every single penny.

I've told this to a few people, & maybe I've told it most of you, but if I did you'll just have to hear it again. I was talking to the young people at Research & pointed out to them that on the financial side of things, it does cost a lot of money. The investment here has been a lot of money. What I told them about their lives & them, which I'll just say to you too, is that it takes the tithe every month of 2-1/2 Homes to pay for one of you. That means the LAMB Home & Art & Bec's Home, if you take the average tithes of all the Family, the LAMB Home who goes out whatever they do & whenever they go out on the street, whatever they do to raise their funds, they take 10% of the money. And Art & Bec's Home go out there & do whatever they do, & they take 10% of their money & then another Home takes 5% of their money & they put it in an envelope & they send it over here & they say, "That pays for you." OK, then another 2 Homes does that, & that pays for you--& you. Two & a half Homes every single month for you.

I said it to the young people there because I wanted them to see that they need to understand that, that we serve the Family, that they actually pay for us to be here. Most of us

who work in WS--as you are members of WS & work in WS--get to do... our work is the thing that we like to do. We're doing something that we really want to do, otherwise you probably wouldn't be here if you didn't really want to do this, what you're doing. Very few people in the world get paid to do the thing that they really like to do. I was using those guys as an example. Computer guys are really into computers, web sites & stuff. Well most of the people don't get paid to do that. They have a job flipping burgers or something, then they come home & do that on their free time. But these guys get paid to do the very thing they like to do, & it's a blessing. It's a real privilege to be able to do that.

I was trying to make the point to them, & this is what I said. I said, "Look, if we could take those two & a half Homes & make them invisible & they could just come here & watch you—the two Homes that support you--& watch you for a week or a month, what do you think?" Two question: Number one, would they be getting their money's worth? Is what you do in those 30 days, are they going to feel now I'm really happy to tithe, I'm happy to put my money in my envelope & hand it into his hand every month because I'm really getting something for this. And the other question I asked them is, because I knew that some of them work very hard & the answer they might say is, "Yes, I think they do"--& maybe it's so, maybe they do work hard, as you guys do. The other question I said was: Would those two Homes go, not only yes, OK, am I getting my money's worth out of this guy? But is this the kind of guy that I want to support? Does he believe like I do? Does he hold up the things that I do? I'm out here on the street because I believe in the Family, I believe in the New Wine, I'm trying to live this. So the question they're going to think is, "Well am I supporting somebody who feels the same as I do?"

Those are two things that I think all of us need to put in front of us often. I know in figuring this out when I was there, it really made me think & pray about myself & what I do with my time & what my attitudes are & how close am I following. I'd have to figure out our Home's budget, but I'm sure it's about the same—2 or 2-1/2 people are supporting me too. The thing it does to me is it makes me want to do my very very best & to give it my best shot both in my work & in the spirit.

I just shared that with you because you do have contact with Homes, as do I, but yours is more informal. You're around & people actually do see you & they do talk to you & that's kind of an added responsibility in a sense. Because they sense your faith or your attitudes. They sense if you're working hard. When I tell this to people at Research or other places, it's kind of theory, if they could come invisibly. Well, the fact is you do have people come & you do talk to people & you do see them & they do know. Sorry, but it's a little bit of an extra addition on you to try to be very positive about things & try to uphold the things the Lord is doing & being an example of it, because you really are—whether you like it or not—a face, & perhaps almost "the face" of World Services to the Family. People don't see the people at Research; people don't see the people in our Home except for when a few of us go around. And I'll tell you, when we do go around, I know it has an impact because I've been out there & people go "Whoa". When I go out, I know I have to really think about being an example.

I don't want to hang this huge heavy burden on you that you can't say anything because you're afraid you might say something that will reflect badly. It's not that bad. But it is something to remember, that people do look at you. I believe some of them probably look at you & go, "These are my tax dollars." (Family: That's right.) They look at you like a government official & they know that they're paying for you. I've had people sit & ask, "Where do our tax dollars go?" Well, it's not really tax dollars. The fact is it's a tithe, they're

giving it to the Lord. But we're the Lord's stewards & we're the recipients, every single one of us, of those funds. Therefore we owe it to the Family to give it our best & to do what we can, whether it's in our work or in our spirit & in our interaction, to be all we can be for them, because they deserve it. Anyway, I just wanted to share that with you. I've shared that a little bit & some of you have heard it before, but it's just a thing to remember. So, praise the Lord.

OK, next subject. I'd better talk fast here. I really don't have that much, I just mainly wanted to share that point. OK, I have a couple of things to read, some prophecies to read to you.

Oh, one other thing before I do--& I don't think we shared it with everybody. As you know, we've had meetings with all the various departments, which has really been fun & informative. When we talked about the pubs side of things, just briefly to fill you in, we made the decision to concentrate & focus our pubs work for the next 6, 8, 12 months. Rather than to focus on trying to get our pubs on the shelves in the First World, which as we are learning is pretty difficult & pretty much most of what we would write to put on the shelves, there are already other things that are very similar. There are a few things we could write about that are very unique to us, but they probably wouldn't make it on the shelf. So those things that we can write about there is already material out there. We could do it, we could spend the next year trying to maybe get a book or two through the whole process & onto the shelves, & then it may or may not make it. But rather than investing that year in doing that, what we felt was there needs to be some product that reaches the Family at the grass roots level, tools that they can use today that they want.

The work of the Foundation, which is tremendous, & the marketing, which is also tremendous, is not tangible to the Family. To the fellow that's right now in Perm, Russia & under probably 3 feet of snow by now, he's happy that there's a Foundation. He's happy in the spirit, his morale is boosted because he knows, wow, the Family is moving on some of these things. But the product in hand—it's not really affecting him, & it will be quite some time before it does. However if we can produce some pubs that we've asked that guy in Perm or that we've asked the Russian Homes or we've asked the Homes in Africa, "What tools do you need for your field?", & they tell us & we can produce those, then not only while the stuff up here is going on--the marketing & all of this, which is really good & very beneficial—but while that's going on, they're going to be happy because they're getting what they need now at the grass roots, right here on the mission field. That's what we want to aim at.

When I was in Switzerland, I met with a number of people from Africa & they were giving testimonies of how fruitful it is, how many hungry... it's like "everybody needs shoes" kind of thing in Africa. We had some guys from Nigeria who have been there a couple of years & they were saying, "If we could just have this, if we could have that tool, if we could have this book, it'll fly, because people are just dying for it. We give out Mo Letters & things. The people are Christian already, they're saved anyway, but it activates their faith. All of a sudden they grasp it & it changes them. They're just hungering & saying, 'Give it to me'." So we felt that working to supply that need, putting out Posters with Black people in them for Africa dressed in African garb, & putting out Posters for Black people here in the States dressed in native garb (people laugh)—in this case baseball hats backwards. To tailor it to the need of the place, & try to supply the need; asking them, "What do you want? What kind of book is going to go? What do you want in it?", & then trying to produce it. So that's what we want to try to do over the next months on the pubs front. So please pray for that.

It's a pretty big undertaking, but it's one that in order to keep the Family happy, which is part of keeping everything moving forward, we need to produce that. It's been two years since the prophecies about putting out books has come out. Thank the Lord some of the books have gone, & they're very good, we're really happy with them, but they need more, & we need to specialize it. So that's what we're going to do. Everybody seemed OK about that, & that's sort of the direction that's going to go. Of course the marketing & stuff is still going to progress on the same projects that you're presently on, & we're hoping that those will take hold. The Foundation is moving forward. So on these fronts it's going good, & this is the front we're opening a new battle on this, but one that's pretty easy to win because we're used to putting out that kind of material. It's not a major obstacle to us, & we think it can happen pretty quickly, & it does need to.

Also we discussed about the Foundation & the finances that are coming in. Like a lot of the finances that come in are the ones that are sort of designated gifts, people give to a Family member through the umbrella, their the Foundation & it basically goes out. But there have been some gifts that have come in directly that are unspecified, thus the Foundation can use them, & has been for wise things. It's going well. But one thing the Lord kind of laid on our hearts is that if we want to get, we need to give, & that's the policy. That's how it works, if you give, you receive. So we've been able to discuss & pray about possibly helping to fund....well the decision with the board was already made to fund translations of videos into Arabic because they're really crying out for them & they can do it relatively cheaply. Also we'll do it for Turkish & Hindi, because we've asked the CROs & we've asked them (the people on the field) & that's what they need help on. So that's something that the Foundation can—well Lord willing if the board agrees—can move towards giving. It's an amount that's affordable, & it's giving to the mission field. And that's one of the main things that we of course want to be able to do through the Foundation. So if we have a little & we can give some then that's the principle: Give & it shall be given unto you. So we're trying to apply that principle in hopes that the Lord will fill the baskets as we start giving some out to the field, to the missionaries.

So that's just sort of some sideline stuff to let you know what we're going to be doing.

So that's a little of where at least the pubs thing is going to go. Please be praying for that, because as I told the pubs guys, if you don't do it, there's nobody else. We're not going to be doing it at Home, so it's up to you. So it's a project to really pray for them. It helps the field, it helps the missionaries, it inspires the Family to have new tools, & it helps people to really feel that their giving to you is producing something that is helping them. If they never got a tool, what they give to you is producing things or is being a help to them, it's just that they don't see it because it's happening at a level in which they're not involved. So I know & you know that what you're doing is helping at that level, & we say so in the Grapevine & different things, but there's nothing like, "This is what I need, here it is, I love you GPU forever."

OK, now I'll shut up & read to you. I've got just a couple of things. (Prays: Thank You Lord, do bless this, in Jesus' name.)

Mom had some people pray before we left & got some prophecies for you all, which are very very encouraging. So I thought I'd read them. OK, this is the first one. This is from the Lord. He said:

(Jesus speaking:) To each of you I say, you are very special to My heart. You are very dear to Me and I love you more than you can imagine. You are My love, you are My

heart and life and happiness. You are My loved one, My loving bride, My passionate lover and faithful faithful servant.

As I see your loving service to Me and to the Family, My heart overflows with love and joy for you. As I see your sacrificial love for Me and others, My heart swells with pride in you. I am so proud of each one of you. I am so in love with each one of you. You have given so much of yourselves to Me, and to others. You have truly lain down your life so that others could know Me and have My Words. You have fought valiantly and carried My Words with pride in the face of great difficulties, and you have humbly laid your gifts of service before My feet, and I say, "I am proud of you." I treasure each tear, each prayer, each task, each project and each battle and there is laid up for you a great reward.

And I send My king to your side to be a touch of My love to you, a touch of My appreciation and thankfulness for your months and months of loving, sacrificial service and labors. The sacrifice that he is making to come to you is small in comparison to the sacrifices that you have made to be here. So sit at My feet now and let Me reward you and bless you and give you rest from your labors. Sit and listen to My voice and My words unto you, through My king, and let Me soothe your tired sinews and restore and refresh your spirit.

You are so precious to Me and so important to My heart. Rest now under the shade of My wings and let Me enfold you with My love. Let Me strengthen you with My Words of love and instruction. Let Me tenderly and gently mop your brow and love you with My love. Let Me now pour into you, and replenished all that you have faithfully poured out to others. My dear children, My beautiful brides, how I love you and how I need you. Sit and rest and drink in the words of My mouth, the love of My Spirit, the seeds of My Spirit and all that I have for you. Let Me fill you to overflowing and reward you with My love and appreciation. (End of Prophecy.)

Thank You Lord. Sweet, huh? (Family: Amen.) The Lord really loves you guys. And coming to the GPU, it wouldn't be hardly a visit if we didn't have something from Dad. We expect Dad to say something. (Prays: Lord, please bless & help my reading.)

Dad said: "God bless you! You're my team, my GPU team—guts, perseverance, unity—GPU. That's certainly what you all need for the big battle that you're up against. It takes real guts, real courage, the strength of the spirit and vision to do what you have done and what you're going to do. It takes real perseverance, determination, schtick-to-it-iveness.

"It's difficult to keep going when things seem to move so slowly and you don't see the progress that you would like to see. It takes unity, a strong bond, being a team, a body fitly joined together for His glory, each one doing his part and each one carrying the load of the other. I'm proud of you, I'm thankful for you and I admire you for even being willing to take on such a big big job.

"What a job! What a ministry! What a great pioneer effort! But the Lord has called you and He's anointed you and He's bringing His will to pass step by step. So don't be discouraged, don't look at the waves or look down, but look up and count your blessings and see all that has been accomplished and all that you have learned and all the people that you've met and ministered to and witnessed to. See the progress that has been made; even though it's not as much as you would like and things aren't moving as quickly as you would like, and you're tempted to be impatient or frustrated, or at times you even feel like throwing in the towel.

"I know you've encountered a lot of ups and downs and stops and starts. It seems like you're going two steps forward and one step back. There have been some disappointments, some unexpected obstacles and you've had to fight through some real barriers, both in the physical and in the spirit. But through all this the Lord is having His way, not only in the work you're doing, but also in your personal lives. He's teaching you many precious lessons. He's making real fighters out of you and He's fine tuning you for this very special ministry.

"Of course it's going to take time to lay the foundation, to investigate and research and experiment. Of course, it's going to take time to learn the ropes and to feel your way around because you're in real unfamiliar territory, but I gotta hand it to you, my GPU team, you've really done it and you're doing it, and I'm proud of you.

"Thank you for standing up to the attacks of the Enemy, and his doubts and discouragement. Sometimes when the Enemy attacks and you feel like you've come up against brick walls and you don't know which way to turn, the temptation, of course, is to feel discouraged or condemned or feel like you did something wrong. But that's not the right way to look at it; you should take this as a compliment. As I always said, when you go over the top, that's when the Enemy starts shooting. If he's fighting you and hindering you then it must be because you're doing something right. You're going on the attack to pioneer, you're putting your faith into action, you're trying to yield and step out on the water and do something new. It takes a real pioneer spirit to do something new, to really get the ball rolling in a new work or a new ministry or a new vision. That's why the Lord and I have put you all together—you're a bunch of fireballs, a bunch of strong, pushy, dynamic characters, but that's what the Lord knew was needed to pull this off and to do the job that needs to be done.

"Each one of you is so very important; so please resist the temptation to compare. Some of you have the more exciting ministries, meeting more people and getting to be out and about more. In some of the ministries there is more adventure, more challenge, more change; but if you're one of the ones called to be behind the scenes in one of the more hidden ministries, don't despise the place that the Lord has given you—because every one of you, regardless of your ministry, whether it's out front meeting the public or behind the scenes taking care of the business or the shepherding or the Home affairs, each one of you is absolutely necessary, vital and very very valuable to the team. Each one of you bring special gifts and talents and strengths to the team.

"Comparing is an age-old tool of the Enemy to distract and discourage and bring you down, but you just have to trust and believe in the Lord's Word and these words that I'm telling you. And I say that every person is needed and every single one of you is very very important. So don't be weary in well doing, don't listen to the Enemy's lies; don't start looking around at other Homes or other fields or other ministries and think you might be happier somewhere else, because if you just hang on, hold on and schtick to the job the Lord has given you, soon you'll see the results, the fruits of your labors and you'll be so glad that you didn't give up.

"Sure, the battle may be hot and heavy now and you may feel that anyone could do what you're doing, and it hardly bears any fruit anyway. You might even think if you weren't there and you were somewhere else, no one would even miss you. Maybe that's how unimportant you think your ministry or your job is, but let me tell you, and please believe me, every one of you is needed!--Not only for the job you do, but also for the strength of spirit that you bring to the team and for the prayer power that you can generate.

"Each one of you knows the situation, you know what's going on and you're in the best position of anyone to really to pray, to seek the Lord and to beseech Him for the miracles that are needed. You see first hand the battles, the tests and trials and the challenges that you're up against. You know the fight, you see it before your very eyes. You see how weary your co-workers get, how tempted they are to be discouraged or frustrated or to try to lean to the arm of the flesh to make things go faster. You know the struggles with fund raising, you see how time consuming the research is, you see how difficult the battles are, both on the home front and in the field.

"The Lord has given you a very precious, priceless, valuable ministry, and that's the ministry of prayer. Of course the Family's praying for you, and Mama and Peter and those in their Home are praying for you, and I'm praying for you; but you're in a situation where you can pray so much more knowledgeably concerning all the details and everything that's going on on a day to day basis.

"So if you feel like your ministry is not as challenging or as exciting as you would like, if you feel like you're at a dead end and you're doing the same thing day after day, well, take up the challenge to be a prayer warrior. You can be out there on the field doing the fund raising, doing the ministering, doing the pioneering of these outside ministries through your prayers. Each person, each one of you, is an integral part of this team. The Lord has hand-picked you and prepared you.

"Do all you can do and be all you can be to make this team what it needs to be and to bring the success that the Lord want to bring on your ministry and on your efforts; and this vision will come to pass, the Lord will bring it to fruition and you will see your dreams come true. You'll see the finances that the Lord has promised. You'll see the books published that you're working so hard toward. You'll see expanded marketing of our tools. You'll see greater and more effective and more diverse GP tools.

"All these things that you've worked so hard for are at your fingertips and they're within your reach; but what will bring them to pass is your prayers—your desperate, consistent, daily prayers. I don't just mean your daily time of united prayer and devotions and during your meals and on your prayer mornings and organized prayer vigils, but I'm talking about the desperate sincere private prayers that you pray when you're alone with the Lord; when you come before Him and pour out your heart about the needs of your brethren, your co-workers, your contacts, your potential donors, everyone who is so essential to making all this work.

"Oh, there's so much to do, so much to learn, so much work to be done! The task is way too big for human hands, it's much much more than any of you can bear on your own shoulders. In spite of your experience and the gifts and talents and strengths that the Lord as given you, it's still way too heavy a load, and if you try to carry it yourself you'll just be crushed beneath the weight. You have to take it to the Lord and let Him carry it, let Him do it. I know you've heard this message before, but it's one of those things that the Lord just has to keep repeating and repeating because it's the natural tendency of all of us to try to do it ourselves; to think we have to work harder, put in more hours, give a little more of ourselves and our time and our strength; push and push and push because we so much want to see the Lord's work progress.

"I know that's your desire, I know that's your motive and your heart is right with the Lord and that your labors are for His sake and for the sake of the Family and the sheep. But sometimes you just try too hard, work so hard and press in so hard, labor so hard and try so hard that it can become almost a work of the flesh instead of just letting the Lord do it.

"Oh, it's so much easier to just let the Lord do it, to sit down and relax and hear from Him and let Him tell you what to do and how to do it and then you just follow. It's so easy. It takes away so much of the stress and the strain and the weight of the burdens. If you can just continually realize that this is the Lord's work, it's His project, it's His vision, it's His unit, it's His responsibility, and just don't take so much on your own shoulders. Let Jesus bear the weight. Let Him do the work. Let Him worry about the contacts and the fund raising and the mass marketing and all the many decisions. You just go to the Lord daily, every day without fail, and seek Him and ask Him and hear from Him in prophecy and He'll give you the instruction that you need. He'll help you with the decisions that you need to make and He'll give you the encouragement and strength and reassurance that you need so you won't feel burned out and stressed out and freaked out.

"As I said, this is a big big job that you've taken upon yourselves--or rather that you've said yes to the Lord and been willing to let Him work through you to do. It's a big job and it's going to take time, and you need to pace yourselves or you're just going to wear out and run out of steam.

"We need you!--Each one of you! The Lord, the Family, Mama and Peter and I need you. You're so important to the kingdom, so important to the future. You're key players in a very great work and you're laying the foundation now for something that will be so monumental, so colossal in the future that even you don't realize it now.

"This is just the beginning of a work for the Lord that's going to grow and grow and grow. It's going to snowball. Your work, your efforts, your labors of love and your sacrifices and prayers and everything you've given up and forsaken in order to do your job, is going to bear fruit that will affect every single Home and every Family member. So don't lose the vision, don't get weary in well doing, but keep fighting the good fight of faith as you have been.

"You have fought and you have won. You've progressed and you've learned. You've accomplished what the Lord wanted you to accomplish. You're following His still small voice and the Lord is making you into a team that is fitly joined together for His glory. I'm so thankful that you're all such fighters, and I'm so proud to call you my children. I love you very deeply and I'm thankful to have you on my team, my GPU team--the team with guts, perseverance and unity. Praise the Lord! Hallelujah! God bless you, I love you! XXXXXXXX." (end of message from Dad.)

(Everyone praises the Lord.) Hallelujah! Thank You Lord! Well, thank you, Dad. Sweet, huh? (Family: Beautiful!) I have to say that the thing about prayer, about really praying & pouring out your heart to the Lord, it's really important because we pray for you all the time, our Home prays for you, & like Dad said, the Family prays for you. But "Lord bless the GPU, help the with this & that", but you guys know the people, the names, the faces, & as Dad said, without that personal desperate prayer on your prayer, it won't work. You have to really pray for those people & not just, as he said...I mean it's nice to have prayer around the table & things, & you have to do that too, but it's your job. Doing the actual work is not the only part of it, it's having that desperation for it, whatever it is, & praying one for another. We really should be praying, & I have been guilty of not praying enough now for like a tool & the Citi-bank thing. When you know the name, when you know the detail, that's where we all need to really pray because you can be sure again the Enemy is not thinking, "Oh yeah that's a really good idea, let's give the finances to these guys so they can get out these videos." You can be sure that the Enemy's not thinking that, & he's going to do what he can behind the scenes in the spirit to not let it happen. There's a lot of things he can do. People

high up, big mucky-mucks have to make the decision to say “yes”. So we need to be praying in the spirit & really beseeching the Lord that it goes through, in whatever project it is. But you’re the guys who know.

Sorry I’m kind of going through all of this a little bit fast so you don’t have to be here that long & because we have to leave on time. So we’ll leave these prophecies. I can give them to you on disk & then you guys can study them over again. But there’s one other thing I want to read. Some of you might have even read it because I think it passed through locals at one time or other.

But in the prophecy where Dad talks about your Home, the GPU, & he says, “Guts, Perseverance & Unity”, unity is something the Lord has shown us that Family-wide is a major problem. We’ve made a lot of headway in a lot of things over the last year, the last 18 months or so, but there are things in the spirit that the Family at large has to overcome, & disunity is one of them—whether it’s disunity within a Home, or disunity between Homes, or disunity between people. It’s a major problem. Some areas are a little better than others. I understand, from what I heard, that more or less in this L.A. area, the Home work pretty well together. There are other places where they work really well together. There are other areas where the Homes are just at logger-heads, they won’t even talk to each other sometimes. And within Homes, it can be the same thing, there’s disunity.

It’s interesting that in your Home for your situation, one of the things that Dad listed was unity. So I want to read this, a prophecy, it’s not too long, but it’s probably one of the most important prophecies on this subject that there ever was, because it shows the importance of unity. And in your case, the unity of your Home & everybody really working together & being really one in Spirit. Because as you’ll see from reading it, you’ll see the importance of it, what will or won’t happen based on that factor.

So the Lord said: **“Unity comes from the power of God! Unity is a gift of God. Unity is the manifestation of the Spirit of God. Unity is a reward.**

“As you give of yourselves, as you sacrifice your time, your strength, or your loved ones for the needs of others, you are rewarded with unity. When you love each other and you’re willing to humble yourselves, to apologize, to take the low seat, to give the other the benefit of the doubt and to hear them out; when you’re willing to work together, even if sometimes you have to sacrifice your own personal desires or preferences, you are rewarded with unity.

“If you’re willing to flow with changes in the schedule, to stand in the gap for somebody who’s not feeling well or who has to take care of an emergency; if you’re willing to cheerfully care for the children, to minister to contacts, to go out witnessing; if you’re yielded to the nudges of My Spirit when I encourage you to give affection and show love to those who are in need; if you’re willing to communicate with those of the other generation, to listen to their thoughts and feelings and point of view and not be so stuck in a rut or so convinced you’re always right; if you’re willing to let your mate or loved one love someone else and supply their needs for sex, affection and companionship; if you’re willing to take that single mother into your fellowship, into your family, into your heart, and into your bed; if you’re willing to be a foster parent to the young people who need you; if you’re willing to discuss and pray together and hear from Me together; if you’re willing to work hard together to reach the goals that you have set unitedly--for all of this I will bless you with unity!

“Unity is in itself a great blessing, for with it comes the happiness, the warmth, and the joy of My Spirit. Unity is a blessing in itself because it makes you a better testimony to outsiders. They marvel when they look at your communal living. They know and

admit that it's a miracle, that something supernatural is happening in your Home for people of so many different walks of life and different generations to be able to live together in such love, harmony and unity.

"Unity is a reward in itself because you don't have to suffer the stress and strain and discouragement and condemnation that comes through arguments and discord and not getting along with one another. You don't have to feel that bummer, tense, uncomfortable feeling that comes up when there are problems between you that are not resolved. So unity saves a lot of time and stress and just generally makes life in your Home much happier!

"Unity is a reward in itself, because when you're reaching out to those in need, whether it be the young people, the single mothers, the single brothers and sisters, your own peers and friends, or your teamworkers; when you're willing to give of yourself, to be a friend, a companion, a lover; when you're willing to take your time to talk to someone who's lonely, or to make someone feel needed and important; when you're willing to open up your life and give your time to that child who needs a foster father; when you're willing to help that troubled teenager who's so confused and seems so rebellious--all of this brings with it a certain satisfaction and reward of spirit.

"When you give in this way, even though it may initially be a sacrifice and it may hurt, it's not long before you see the rewards, and it becomes so obvious to you that you did the right thing. You can feel the Lord's love in your heart and you have a sense of accomplishment, a sense of fulfillment, a joy and satisfaction in knowing that you made somebody's day brighter, you helped to lighten their load, you helped them not to give up. Through performing these little acts of love and unselfishness to bring unity, you are blessed personally with happiness that can't be taken away. It's not fleeting or dependent upon the circumstances, but it's a gift that I give you--the happiness of knowing that you have been a blessing to someone in need.

"So you see, unity has many, many rewards in itself, but the rewards do not stop there. There are other rewards, greater and more magnificent ones that you don't even see, because they happen in the world of the spirit, the world that is invisible to you. But this world does not need to be a mystery to you, My precious brides, for because of your yieldedness and your hunger, because you create a vacuum to know, I will reveal to you now the workings of this magnificent spirit world, so you will know and understand the importance and the power of unity. You will see why I lead you down the path of unity, and even though it may seem a sacrifice to you, you will know that it is worth it, it is necessary, and it is an important, unmistakable part of My plan.

"Unity is the power of God! Unity is not just a manifestation of God or a reward of God or a blessing of God, but unity is the power of God! The greater the unity, the greater the power. If you would be powerful, My people--a powerful witness, a powerful testimony, a financial power--then you must have unity. For these other blessings of God--provision, protection, supply, fruitfulness--will be given from My hand in direct proportion to your unity.

"Heaven is unity. Unity is Heaven. Here in My Heavenly Kingdom there is perfect unity. The more united you are, My children, the more you will experience Heaven on Earth! The more united you are, the more people will see a living example of My Heavenly Kingdom.

"Unity pulls down Heavenly light, Heavenly love, Heavenly strength! Unity pulls down the riches of God! Unity opens the windows of Heaven so that you can ask what you will, and it shall be given unto you. Unity is the power of God to create, to love, to answer

prayer. Unity is like a force field of protection. Unity is like an endless pot of gold that never runs dry! Unity is like a river of love--rich and full and free!

"Unity is one of the secrets to the blessings of God. To be unified in love and obedience to Me and My Word is one of the greatest drawing powers on the Spirit of God.

"For this reason, the Enemy fights unity! He has a band of fallen angels specifically trained and designated to fight, attack, and destroy the unity of the children of David. He is not ignorant of or blind to the power of unity, so he has taken some of his strongest demons and charged to their care the destruction of the unity of the children of David. His attacks are subtle. They are not usually blatant, because this would alert you to the fact that it is the Enemy attacking. Instead, he works through ways that seem to you to be reasonable, understandable, logical, so you can easily explain away or justify your lack of unity.

"If you're bitter about mistakes of the past or the way someone treated you, you don't see this as an attack of the Devil on your unity. Instead you see this simply as the fact that you are right and the other person is wrong.

"If you're from the first generation and you don't get along with your children or the young people in your Home or city, you don't see this as an attack of the Enemy on your unity. Instead you feel that the young people are just being ridiculous, extreme. You think they're not dedicated enough, they're too worldly, and they need to be more like you.

"Or if you're a young person and you can't communicate with those of the first generation, you don't see this as an attack of the Enemy on your unity. You think the older people are just being old fogies, old bottles; they're too conservative, they don't understand you. You don't really like them, anyway, and you think they're pretty much has-beens; that they've seen better days and now they just need to be put out to pasture and let you take over.

"If you won't let your husband or wife share with that single brother or sister in need, you don't see that as an attack on your unity. Instead you feel justified that, after all, you shared plenty in the past; or if you didn't, well, you feel all that sharing and living the Law of Love is not all that necessary these days. It's nice in theory and it is based on Scripture, but it's not something that you need to be living today.

"If you don't get along with your teamworker and there's a lot of friction between you and a lack of communication, you don't see that as an attack of the Enemy on your unity. Instead you just figure that, well, your personalities aren't the kind that get along well with one another. You just see things differently; you interpret and apply the Word differently and it's not that big a deal. You get by. You may not be very happy together or enjoy working together that much; but, hey, everybody's different, right? You just chalk it up to the fact that your personalities don't quite click.

"If you don't get along with your peers, or you're loving with partiality and leaving some people out of your little clique, making people feel lonely, unloved and unattractive, you don't look at that as an attack of the Enemy on your unity. You just figure that it's the other person's fault; that if they weren't such a jerk or such a nerd, then maybe you and the others would like them better. You don't see that it's your fault for shutting them out and pushing them away. No, you just figure it's their fault because they're so self-righteous, or they're no fun to be around, or they're just not cool enough to be included in your little "in" clique.

"If you don't want to bring the children of that single mother into your family group to help care for them, love them, be a father figure for them, and provide them with the stability, love, and encouragement they need, you don't see that as an attack of the

Enemy on your unity. You just figure, "Well, hey, if the single mother had done a better job of taking care of her children, then they wouldn't be such rascals and such little terrors, and then maybe we'd be more willing to bring them in with our little darlings." So you figure it's her fault for being such a lousy mother. She got herself into this big mess, and now she has to pick up the pieces! It's her fault, not yours.

"There are so many ways the Enemy attacks unity, yet so subtly, giving many excuses, justifications and reasons why the situation is what it is--all the while carefully concealing the fact that these conflicts, misunderstandings, and loveless acts are inspired by him, and are attacks from him to destroy the unity and the oneness that I, the Lord, would want to give.

"He wants to hinder, weaken and destroy unity.--Not just to make your life miserable and to steal away your joy--although that's one reason, yes--and not just to weaken your testimony so that the light of My love does not shine so brightly through you--and yes, that's another reason. But the greater reason is to stop the outpouring of My blessings of supply, protection, and fruitfulness.

"The greater the darkness of this world that surrounds you, the greater must be My blessing, and therefore the greater must be your unity. The unity you have had in the past and in recent years, and the unity you have now, is not enough for the days that are to come. For gross darkness shall cover the Earth, and though you are called and chosen to be a light in the midst of this darkness, you will not have the power of My Spirit that you need unless you grow in unity.

"Unity creates a vacuum and pulls down the blessings of God! Unity has drawing power! And as you wish for your anointing, power and strength to grow in the Endtime, so must your unity grow.

"It is not an option or just good advice--it is a requirement! It is the condition that I place upon My people. I can only pour out My blessing, My anointing, My protection and My provision, which brings My fruitfulness, in proportion to the unity that you demonstrate.

"You must grow in unity. You must grow in oneness. You must become truly one wife if you are to succeed in the mission that I have set before you.

"As you learn more of the unity that I desire, you may feel that the cost is great. But I say to you, beware, and be not foolish in your judgment. The price you pay for the unity that I seek is nothing compared to what you will lose if you refuse to seek and find such unity.

"You are My chosen people of the End--My voice, My mouthpiece, My face to the world! I shall raise you up and make of you a great people! My power shall be manifested as never before! There shall be a mighty widening of the eyes of those who look upon the children of David in the End! But you must desire this place, this calling, and this honor above anything! You must be willing to pay any price to secure My blessing and anointing. You must be willing to make any sacrifice to be a united body, one wife.

"But I promise you, I swear to you that any sacrifice you make for the sake of unity will be rewarded so greatly that in time there will be no comparison between what you gave and what you received in return. You will look back on the day that you took a stand for unity, that you made a commitment for unity, and you will rejoice with great rejoicing! You will be so thankful that you did not fail, but that you said yes. For you will have seen with your own eyes that the battles at hand could not have been won without My full anointing of power, strength, and love. You will know and understand without a shadow of

doubt that this full anointing would not have been possible had you not come before Me in the power of total unity.

“Therefore, let unity reign! Let My chosen brides become one bride, one wife. Let there be a marriage of the generations. Let there be a marriage of those who are single and married. Let there be a great melting together until you are of one heart, one mind, one spirit, and one body. So will the windows of Heaven open to you, and I will pour out such a blessing that you will not have room enough to receive it! My promises will be fulfilled.

“I place in your hands now the key to the windows of Heaven, the key of unity that will open the door and create a vacuum to pull down the blessings of God and make of you My great people for the End! *(End of message from Jesus.)*

Thank You Lord. Thank You Jesus! Praise You Jesus! Help us, Lord. (Everyone praises.) Isn't that heavy? (Family: Yes.)

This is something that will be shared later on down the road in a couple of months, I think maybe even at the Feast. But you know, often things in the Family like major kind of pushes or things of the Spirit often start in WS first. I can think back like when we were in the Petinas house & hardly anybody ever asked for prayer for anything, if you had problem. We had to start doing it there first, & then we wrote more about it, then it went out. And there are other things that have been like that. I would say that this unity push—it's not really a push but an imperative thing that must happen—is something that has to happen, begin somewhere. I would say in WS is the place where it should begin. We've heard it, & if there's any place that needs the anointing & the blessings poured down & all that is here, that is stated in this Letter, it is here & it's in WS.

But you guys especially in your work, that's what this work is all about, it's getting out the message. But really it's finding ways to tap into the blessings of God—the financial blessings that we need & in a sense the protection too of being more accepted, which will come about by people accepting us, in a sense through the Foundation & other things, through the marketing & all of that. In time, that will help the Family to be more credible or accepted, which is protection. This Home is a major conduit of those blessings. It's probably the major channel—I mean we will see, but it portends to be the major pipeline for those blessings to all the Family. Therefore there can't be any hindrance within that pipeline. Therefore, as the Lord said, the blessings are in direct proportion to the unity.

Now that goes for the whole Family at large. I don't know, maybe until the Family all reads this & really works on their unity, the Lord's not going to be pour out as many blessings as He wants to. I don't know. But I do know that here there has to be a real strong unity, just like the Lord said. There has to be a real oneness of purpose, & not just a unity in the work but a unity in the spirit.

You guys have all been together now for awhile & as Dad said, you're all fireballs & men of force & women of force & strong people. That's why you're here. You're the perfect people for this. We could not have a great number of more quiet type personalities because you need guys that get out there & get in people's faces once awhile & do the job. But within that also there is the potential for more disagreement or getting bugged about things, & that too I think we have to look at as we're reading that list, as an attack of the Enemy on unity. There is a familiarity amongst you that makes it that so, “Well so-&-so...”. But I think those things you also have to see a little bit as an attack of the Enemy on your unity. Yes, we're all personalities & everybody has got their quirks, & all of us are very far from perfect beings, that's for sure. It's all of these things that we have to learn to love & accept one another in

spite of these things, & to pray & ask the Lord to overcome any kind of frictions or any kind of ill will or ill feelings because the unity factor here is so important.

If the blessings of the Lord are contingent on the whole Family's unity, then how much even more so the importance of the unity of the pipeline of those blessings. It creates a vacuum for the blessings of God. We have to have that vacuum. It has to start somewhere, & I would say that within this Home & our Home & Research & FC & the various Homes that serve the Family, we really have to uphold this starting now. We can't wait until the rest of the Family gets it, because we're part of the conduits of those blessings. That not only includes you, but us as well, all of us who pour out the Words & all the rest. We have to have inter-WS Home unity. We have to have a strong unity between this Home & you personally & us. It's really important. We've got to be able to have that free flow of communication & love & understanding. We just need to be united. Our inter-WS Homes need to be united, & the Home here, the two Homes that you have need to be united, & each of your Homes within the Home need to be united, & each of you between each other need to be united. Otherwise the project isn't going to work.

That's basically what the Lord is saying, "I have called you, I have anointed you, I have brought you here, but the job is so big that it won't happen without his full anointing which isn't going to come without full unity." So I think it behooves us all to keep this in front of our faces about "we really need to be united", united in spirit, really entering into the spirit together, seeking the Spirit of the Lord together, manifesting the Spirit of the Lord together, & making those sacrifices that it takes to have unity, which is sometimes letting go of your own preferences or your own ideas & things—yielding--& that's on everybody's part.

I just thought since Dad said, "GPU—Guts, Perseverance & Unity." Well, I know you've guys have got plenty of guts, or you wouldn't be here. And "perseverance", you get double A on perseverance. Unity is the one area though, & it's like part of the three. I think that's the area. I think if you work there & pray, I think the Lord is going to do the miracles that He's promised. But a great deal is going to depend on you all. Not just in the work, as you said, but in the prayer & in the unity. And as you do that, I think we're going to see great things. He's promised them.

He's promised the great things. The fulfillment of our dreams, of your dreams, of the dreams you're working to produce. But the dreams can only come true through a combination of work, of actually physically doing the work, but also the spirit, by doing the work in the spirit.—The work of prayer, the work of sacrificing to have unity, & the work in the physical of actually doing the job. All the components have to be there. If you just sit around & be united all the time, it's probably not going to happen because nobody is out there making a...(someone coughs real loud & obliterates a couple of words)... If you're only praying all the time, well the Lord could do it, but He's not going to do it through you because you're not out there doing it. And if you're only out there kind of slugging away & trying to do the job, that's not going to do it either. You have to have all the components. Just like it's the GPU, it's the prayer, the perseverance, the work & the unity. I think as all of those pieces come together, we'll see real super vics. OK? (Family: Amen.) Praise the Lord. Thank You Lord.

(Everyone praises the Lord together.) (Peter prays: Thank You so much, Lord. We love You so dearly & we're so grateful to You. Lord, we see the importance, as You've said here, of unity & of prayer. We see how important it is for us to be united, & without it, we're not going to receive the blessings, & we need the blessings. We need the protection. We

need the supply. We need the finances. We need to be able to get the tools out. All of these things, Jesus. You said that it's really not going to happen unless we have unity.

So we come before you together as the body right now & we pledge ourselves to work towards that goal, to work towards being united in Spirit, united in you, to do the things that we need to do, the sacrifices we need to make in order to achieve the unity we need. Please please help us, Lord. So much depends on us right here, every person in this room. So much of what you want to have happen for the whole Family, the blessings that You want to pour out depend upon us. That's a big weight & it is a burden. But You've told us that You've given us the key to the blessings of God, to the windows of Heaven, & You said that key is unity. So Lord, we ask You for that unity, that oneness together, that oneness in Spirit that we all really work together in harmony but we are also one in Spirit, that we seek to enter in the Spirit together with you & with one another so that we can use that key to unlock the doors & the windows so that the blessings can pour forth upon us. So please, Jesus, help us. We ask that with all of our hearts, in Jesus' name. (Everyone thanks & praises the Lord.)

Lord, we'll just be quiet for a minute or two or three just to see if You have anything You want to add, any other Word You want to give, in Jesus' name.

Paul: The turning of a page, the dawn of a new day, the fall of a snow all bring about a great change. This is what I am doing in this day for you all. I am bringing a change, a fresh look, & what I am doing with you & through you & in you. I have called you to step back & look at the instrument that I have in My hand in you, which through your great involvement could not see, being too close. I have called you to behold My will, behold My plan, & behold My tools. I have called you into My confidence that you may better understand the vision that I have for your Home, for you in this new day. For much is ahead & much each one of you is needed for all that is ahead for My children. Therefore let your hearts be refreshed, pardoned, forgiven. Let your hearts be encouraged & envisioned & let this be a new start with a new will to make it happen.

Know this, as I love you, as I need your love, we're all in this together to make it happen together. Therefore forget the past & look forward with a new desire & a fresh burden to make it happen in unity, in love, in companionship & friendship with one another. See this as a fresh snow upon yesterday's hurts & confusion & distorted views. Let the past be past, & look ahead with a united heart for all that I have in store for you & My children. Amen.

Peter: Come, come unto the fire. Come closer, for as you come closer to the campfire, as each of you take a step closer to the fire, you will feel more of its warmth. And as you come closer to the fire, so you come closer one to another. As you huddle up closer to the flame for the warmth, you will be closer one to another, & this My children is the key. For I am the flame of fire. My Spirit is its warmth. As you come together closer to Me, to the warmth of My Spirit, as you all face towards the campfire, as you all walk towards it for warmth, for heat, for light, for comfort, so will it draw you closer together. So come, I say, come in from where it's cooler. Come in from where it's darker & approach the fire that is in the midst of you, all of you facing the flame & moving closer to its warmth, & let me bring you closer in to feel the warmth of My Spirit, the warmth of My love & the companionship of one with another.

Mike: Beauty for ashes. I am He that gives beauty for ashes... of hurt, of disunity, of division. I am He that gives beauty for ashes. If you will call out to Me for My showers of blessing, I will pour out a blessing you shall not be able to contain, & I will wash with

showers of refreshing to cleanse, to renew, to make you a city set on a hill, for you are a city on a hill & you cannot be hid. But to show forth My light, to show, to reflect the radiance of My Son. Call out to Me for My showers of refreshing to cleanse, to give beauty for ashes, that the ashes may be swept away & You may be My children without rebuke in the midst of a crooked & perverse nation holding forth the Word of Life, a city set on a hill that My light may go forth & reach the hearts of those who look, who grope, who seek. Therefore call out to Me & I will refresh your land & I will send showers of blessing & refreshment & beauty for ashes.

Peter prays: Thank You for speaking to us, Lord—so precious, so sweet. We really love You & need You, & we do wish to draw close to You, to have these refreshing blessings of Your love & unity. We do wish to move in that direction, so please help us, Lord. We need You to do it. But as you said, we will look back to the day that we have committed ourselves to be united & later on down the road see the victories would have never happened if we had never made had we not made this commitment. So please do help us, in Jesus' name.

Anybody else get anything? Some of you maybe were even going to get a prophecy & you could get it later with your little tape recorder & turn it in to Grant.

Don: I kept getting that verse about "if we walk in the light as He is in the light, we have fellowship with one another, & the blood of Jesus Christ cleanseth us from all sin." The prophecy was saying unity is a manifestation but it's also a cause. (Something about a campfire, sorry can't hear it). ...getting in the spirit causes fellowship, & without having spiritual fellowship, you're out of the spirit.

Frank: I had a little vision & I saw the word "Unity" written vertically in bold letters. Every letter had another word or words written out from it horizontally across. Out from the "u" were the words "undying dedication". Out from the "n" were the words "non-wavering faith". Out from the "i" were the words "intimate connection" (with Jesus). Out from the "t" were the words "tender affection", & I had the feeling that it meant with one another. Out from the "y" was the word "yieldedness" above all.

Peter: That was beautiful, thank You Lord.

(End of meeting & end of tapes.)

End of file.
